

8.30-9.00	Registrering og morgenmad				Vandrehallen
9.00-9.15	Velkomst Sidsel Jensen, formand for IDA IT & Laura Klitgaard, formand for IDA				Kongressalen
9.15-10.00	Keynote: Under the Hood of Black-Box Models Ahcène Boubekki, Pioneer Centre for AI (ENG)				Kongressalen
	KONGRESSALEN AI Engineering & Infrastructure Vært: Simon Amtoft Pedersen & Julia Sommer	LOKALE 101 + 102 Models & Research Vært: Jakob Skriver Routhé	LOKALE 104 AI Tooling, Benchmarks & Evaluation Vært: Sidsel Jensen	LOKALE 105 AI Products & Real-World Impact Vært: Murugan Chokkalingam	
10.10-10.35	The Hitchhiker's practical guide to MLOps Rasmus Steiniche, Neurospace (ENG)	Smaller and Faster AI: A primer in model compression Rasmus Ørtoft Aagaard, DTU & Laerdal Medical (ENG)	From AI experiments to daily workflow – Three patterns learned from the global Claude Code community Jacob Langvad Nilsson, Mediq & Diana Meda, Servier Symphogen (ENG)	Fra webshop til API: Når AI-agenter overtager salget Jens Peder Kristensen, KeyResearch	
10.40-11.05	Infrastructure as Intent: World models for autonomous cloud deployment Lishuai Jing, Syncable (ENG)	Scaling global neurodiagnostics: Self-supervised learning for point-of-care EEG William Lehn-Schiøler & Magnus Guldberg Pedersen, BrainCapture (ENG)	Programming Languages for AI, not humans Mark Edmondson, Holosun ApS (ENG)	Når AI møder psykologi: Teknologi der styrker relationer Maria W. Brønden, Reflekt	
11.05-11.15	Pause				
11.15-11.40	Scaling AI at VELUX: Building the GenAI Hub Franz Buchmann, VELUX (ENG)	Bag om stemmeagenten Kræn Hansen, ElevenLabs	Adoption of AI Tools in Security Critical Businesses: A Milestone case Riccardo Conti, Milestone (ENG)	Building an AI-powered Meal-Planning Engine for Elderly Homes Hendrik Sippel, Heyra (ENG)	
11.45-12.10	Learnings from running conversational AI systems in production Niels Helsø, Laerdal Medical (ENG)	Sådan trænede vi en tekst til tale model Mads Henriksen, Syv.ai	AI-Arenaen: Hvordan klarer sprog-modellerne sig på dansk? Kenneth Christian Enevoldsen, Aarhus Universitet	From one noisy model to specialized agent-orchestrated models William Heuser & Sofus Erdal, Lumina (ENG)	
12.10-13.00	Frokost				
13.00-13.45	Keynote: When NOT to use an agent: Lessons from systems that didn't want autonomy Jigyasa Grover & Rishabh Misra (ENG)				Kongressalen
13.55-14.20	Stop træning, start implementering Adam Tofting-Dengsøe, JN Data	CoRal: Et open source fundament for dansk taleteknologi Torben Blach, Alexandra Instituttet	Skal vi nu skifte AI model igen? Dan Saattrup Smart, Alexandra Instituttet	AI for learning Kim Rants, Alice (ENG)	
14.20-14.50	Eftermiddagsbuffet				
14.50-15.15	Challenges and use cases in Processing 11 million documents for agentic AI Anders Ottsen & Anton Baht, PFA (ENG)	Alignment i anbefalingssystemer: Hvorfor designvalg betyder noget Jes Frellsen, DTU	How a community effort beat big tech AI models Kasper Ludvigsen, The Tech Collective & Jesper Alkestrup, DDSC (ENG)	Fra retrospektiv succes til klinisk virkelighed: Evaluering af AI-modellers performance i praksis på danske hospitaler Anders Riis-Jensen, Region H	
15.20-15.45	Din agent virkede i går... men hvad med i morgen? Bo Fischer Carlsen, Context&	Built as Designed? Deep Learning for Detecting Deviations in Industrial Construction Andreas Baum, Novo Nordisk & Jonathan Dyrsting Sandvang, NNE (ENG)	Byg ikke bare RAG, evaluér det! Simon Larsen, Capasit	Ansvarlig og værdiskabende AI i landets største a-kasse Thomas Tøth, Akademikernes	
15.55-16.40	Keynote: Hybrid AI — Enabling European AI innovation Bjarke Arreskov-Hansen, 2021.AI & Kim Lars Jakobsen, Aeven Group (ENG)				Kongressalen
16.40-17.30	Reception				Vandrehallen
